

Car Registrations Lag As Renewal Deadline Nears

Less than half the annual renewal period of 1959 vehicle registration is left after this week.

Less than half the motorists of the State have applied for the renewals that become delinquent and subject to fee penalty on Feb. 4.

Robert McCarthy, director of Motor Vehicles, commented in Sacramento today: "The rate of registration applications started off well in the first business days of January. Since then, the weather has been one factor that has slowed the renewal operation. Department of Motor Vehicles offices are staffed to process all types of vehicle registrations now, and can give better service now, during mid-January, than during the final days of the renewal period. We urge motorists to renew early, and make sure of avoiding the penalties that take effect after the deadline."

Department officials emphasize the new deadline that affects nonresident motorists this year. Their applications and fees must be received on or before January 30 to avoid penalties for late 1959 registrations. This affects persons whose out-of-state plates expired Dec. 31, and who wish to register in California as resident motorists for 1959. Their vehicles must be inspected before registration here.

Department offices will remain open Saturday mornings through Jan. 31 to add service hours for the public convenience.

EXPLOSIVE GAS

Wilmington — When nitroglycerine explodes, the volume of gas released thereby is said to be approximately 10,000 times greater than that combined in the original explosive agency.

ence. Auto clubs and associations will continue to serve their members, and 145 temporary bank stations for regular renewals are operating during banking hours until Feb. 4 in metropolitan areas.
